

Riding on air

When your business involves moving people safely and efficiently around a resort, concert or sporting venue, you need to be sure that you choose a high-end vehicle that will create a good impression with every customer.

Powered by a silent-running 48V electric motor that delivers smooth and responsive performance, the stylish Concierge is equipped with luxurious sculpted bench seats offering generous legroom for the largest passengers.

The advanced suspension and chunky tyres make you feel like you're riding on air, and for round the clock operation - indoors or outside - the zero-emission Concierge is fitted with headlights and tail lights.

- ▶ Luxurious 6-seat electric transportation
- ▶ Silent-running zero-emission 48V DC electric motor
- ▶ Wide, sculpted seats with generous legroom
- ▶ Suitable for indoor and outdoor use, day and night
- ▶ Industry leading 5kW/6.7HP power output
- ▶ Tru-Trak II™ independent front strut suspension
- ▶ Headlights and tail lights for 24 hour operation
- ▶ ClimaGuard top for year-round weather protection
- ▶ Convenient underseat storage
- ▶ Light and strong HybriCore™ chassis
- ▶ Easy to maintain in-line battery layout
- ▶ Exclusive Yamaha Genius diagnostics

When people are your business

At Yamaha we're famous for designing some of the world's most advanced motorcycles, scooters, outboards and ATV's. And our in-depth technical knowledge has enabled us to produce industry-leading transportation vehicles like the Concierge.

Everything about this luxurious 6-seat transport vehicle is designed to ensure that your customers can enjoy a smooth, convenient and safe journey, right from the pick up point through to the drop off.

The 5kW/6.7HP electric motor powers your guests silently at up to 31km/h (20 mph) to their destination - while the wide sculpted seats with extra long legroom ensure first class comfort on every journey.

High efficiency 48V AC electric motor

The Concierge's high-efficiency electric motor is one of the most sophisticated and powerful designs in its class, and delivers 5 kW/6.7HP through the rear wheels to give a smooth and virtually silent ride - with the added advantage of zero emissions making it suitable in any situation.

Stylish bodywork with underseat storage

Featuring a tough thermoplastic bodyshell that's finished in a high-gloss polyurethane coating, the Concierge's unrivalled quality stands out. There's plenty of underseat storage space for carrying personal items, and the lightweight roof gives protection from the sun and rain.

Luxurious seating for 6 people

The Concierge's seats are designed to carry 6 people, and are the most luxurious in the class. Each seat features a sculpted foam construction that gives supple back support and promotes good posture for a comfortable ride.

Headlights and tail lights

Fitted with headlights and tail lights as standard equipment, this 'A' list people mover is designed to operate day and night, indoors and outside, making it one of the most versatile and convenient ways to transport guests, members or clients from A to B.

Comfortable, safe and convenient

Whether you need to transport guests at a hotel, resort or airport - or even carry VIP guests to a glitzy event, the Concierge is built to impress. With its easy-access interior and luxurious seating, this silent running vehicle gives everybody the red carpet treatment.

HybriCore™ chassis

The Concierge's HybriCore™ chassis has been constructed using the latest technology, and features a welded automotive ladder-style steel frame that is fitted with a tough and lightweight polypropylene floor, giving a light and strong structure.

The Yamaha Chain of Quality

Yamaha technicians are fully trained and equipped to offer the best service and advice for your Yamaha product. For this reason, Yamaha strongly recommends visiting an official Yamaha dealer for all your service requirements.

Yamaha Genuine Parts & Accessories are especially developed, designed and tested for our Yamaha product range. Yamaha also recommends the use of Yamalube®, our own range of high-tech lubricants, the lifeblood of Yamaha engines. They are developed to carry on working effectively, no matter where you ride.

Besides functional and style accessories, Yamaha offers a range of high quality, innovative riding gear designed to keep you comfortable and protected, both on- and off-road. An extensive range of casual wear is also available. For more information go to:
